Class # 311230-01

July 21	<u>Nature and The Arts:</u> Nature journaling, poetry, drawing in the garden, make nature music, and nature photography. Learn how naturalists “see” nature differently. Junior Naturalists receive their “nature packs”.
July 28	<u>Nature Geocaching:</u> Learn how to use Global Positioning Systems. Explore the fun world of geocaching as you go on a nature treasure hunt and learn about different animals.
Aug 4	<u>Outdoor Skills:</u> Learn about edible plants, how to build a fire and shelter, what to do if you get lost, and other valuable skills.
Aug 11	<u>Birding:</u> Using professional binoculars, learn how to spot and identify different species of birds within Heritage Park.
Aug 18	<u>Bugs and Insects:</u> Learn, hands-on, about a variety of native caterpillars and butterflies as well as a variety of other insects.
Aug 25	<u>Family Day:</u> Advanced Junior Naturalists receive their certificate as well as enjoy a pizza party and family fun! Family members are encouraged to join!
